## About Company

***Engineered for Excellence in Knitwear.  
Serving Global Apparel Brands with Confidence***

*Established in 2010, Trinity Tex is a vertically integrated knitwear manufacturer based in Tirupur, South India's premier textile hub. Operating from two modern facilities spanning 20,000 sq. ft., we are equipped to meet high-volume requirements with consistency and precision. Our in-house capabilities include a knitting capacity of 2,500 kgs per day and dyeing capacity of 15,000 kgs per day, enabling complete control over quality, lead times, and scalability.*

*We specialize in premium apparel crafted from conventional and organic cotton, serving leading markets across Europe, Canada, and the United States. Backed by advanced technology and a skilled workforce aligned with international standards, Trinity Tex delivers trend-driven, reliable manufacturing solutions. More than a supplier, we are a trusted partner committed to strengthening our clients' brands through quality, efficiency, and on-time performance.*

# Vision & Mission

**Our Mission and Vision Shape Who We Are and Where We Are Going. Focused on Delivering Lasting Value Through Quality, Innovation, and Partnership.**

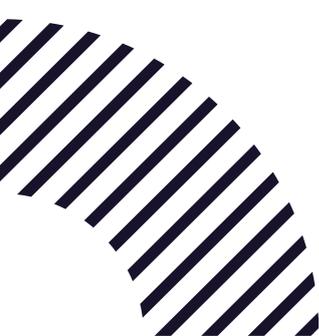

## ■ Vision

*At Trinity Tex, our vision is to be recognized as one of India's leading fabric manufacturers, defined by uncompromising quality, ethical practices, and reliable delivery. Powered by a skilled workforce that is predominantly women, we foster an inclusive culture focused on leadership and continuous growth.*

*Sustainability is central to our operations. Through the use of solar and wind energy, zero-waste recycling, and responsible manufacturing practices, we create long-term value for our partners while contributing to a greener, more socially responsible future.*

## ■ Mission

*Trinity Tex is redefining knitwear manufacturing by delivering high-value solutions for men's, women's, and children's apparel. Our vision is to set new global benchmarks for quality, driven by a commitment to excellence reflected in every detail. Beyond manufacturing, we build long-term partnerships founded on integrity, transparency, and mutual growth—ensuring our customers' brands succeed with a reliable partner at their side.*

# Our Work Approach

Trinity Tex delivers vertically integrated manufacturing for men's, women's, and children's knitwear. We provide expert knitting, dyeing, and value-added services like printing and embroidery. Every garment ensures international excellence through rigorous AQL quality standards.

## Responsive Client Partnership

*We provide prompt and reliable responses to all customer enquiries, supported by accurate, transparent, and cost-effective quotations, enabling informed decisions, efficient sourcing, and long-term value for global apparel brands through responsive and professional service.*

## Bespoke Design Excellence

*We integrate bespoke, trend-aligned designs with the rigorous AQL quality system. Every order undergoes proactive technical screening and advanced metal detection to ensure unique, flawless craftsmanship that meets international export-quality standards.*

## Global Delivery Excellence

*We leverage our vertical integration and strategic logistics to guarantee punctual deliveries across India and international markets. Our streamlined production ensures scalable, time-sensitive manufacturing solutions that uphold your brand's reliability worldwide.*

## Innovative R&D Mastery

*We drive innovation through continuous Research and Development, integrating world-class equipment and modern technical skills. Our commitment to scientific evaluation and advanced technology ensures precision in every stitch, delivering superior garments that exceed evolving global standards.*

# How We Work

*At Trinity Tex, we harmonize technological precision with ethical leadership. Through sustainable practices and women-led empowerment, we deliver world-class knitwear that prioritizes both quality and positive social impact.*

## 1 Strategic Infrastructure and Integration

Trinity Tex operates through a systematically integrated infrastructure where technology and manpower are selected via scientific evaluation. Our state-of-the-art facilities manage high-volume demands, featuring a daily knitting capacity of 2,500 Kgs and dyeing capacity of 7,000 Kgs. This vertical control ensures scalable manufacturing solutions that consistently meet strict international quality standards and lead times.

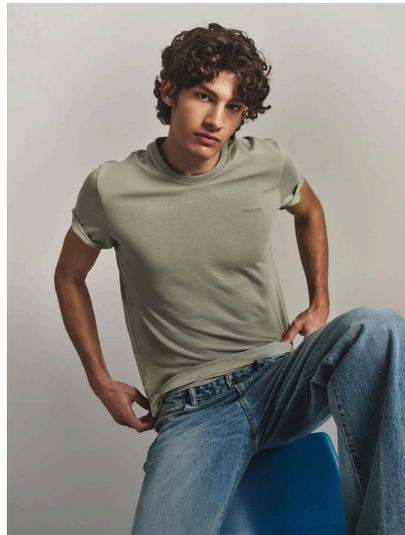

## 2 Ethical Leadership and Empowerment

We are an ethically driven organization committed to social empowerment and professional growth. A core pillar of our identity is women's empowerment, with 80% of our skilled workforce being female. By fostering a culture of leadership and providing comprehensive professional training, we ensure our growth is rooted in a respectful workplace that benefits the entire industry.

## 3 Sustainability and Safety Standards

Our environmental commitment includes zero-waste protocols where all cutting materials are sent to recycling facilities. We power operations through solar and wind energy to minimize our carbon footprint. Furthermore, we guarantee absolute safety by rigorously scanning every garment with advanced metal detectors to ensure a 100% needle-free product, providing customers with total peace of mind.

## **Our** **Product Portfolio & Value Add-ons**

---

*Trinity Tex delivers world-class apparel solutions by combining diverse material expertise with advanced finishing techniques to elevate your brand.*

### ■ **Diverse Apparel Collections**

We manufacture high-value knitwear for men, women, and children, ranging from contemporary T-shirts and Polos to stylish lounge sets and activewear. Every garment is designed to fuse global fashion trends with everyday luxury and export-grade durability.

### ■ **Fabric & Material Mastery**

Our expertise spans 100% organic cotton, bamboo, modal, and specialized blends like polar fleece or spun viscose. We specialize in complex constructions, including single/double jersey, auto stripes, and elastane-infused ribs, ensuring the perfect texture and performance for every brand requirement.

### ■ **Advanced Technical Finishing**

Using world-class equipment, we provide vertical solutions in compacting, knitting, and high-precision processing. Our facilities achieve specialized washing effects and diverse fabric finishes, maintaining absolute control over quality to ensure scalable and efficient manufacturing.

### ■ **Decorative Artistry**

We elevate products through efficient printing ranges and intricate decorative work. Our team specializes in all types of embroidery and ornamental sequence work, adding unique value and aesthetic appeal to help your brand stand out in the international market.

# Our Core Manufacturing Operations

At Trinity Tex, we have systematically integrated our state-of-the-art facilities and skilled manpower to ensure precision at every stage of production. Our end-to-end manufacturing process is designed to meet rigorous international standards and demanding lead times.

## Cutting

### Precision Fabric Cutting

*As the foundational stage of manufacturing, our cutting process is executed with extreme accuracy to prevent non-conformance in later stages and ensure total quality standards.*

## Stitching

### Expert Stitching

*Utilizing a variety of specialized machine turns and loops, our stitching process forms the fundamental core of the garment's construction, ensuring durability and structural integrity.*

## Checking

### Quality Verification

*Every item undergoes a strict inspection protocol to spot cosmetic flaws, stains, or sewing defects, significantly minimizing rejection rates and protecting brand reputation.*

## Ironing & Packing

### Finishing & Final Logistics

*Garments are subjected to controlled heat and steam to remove creases. They are then securely wrapped and compressed for protection, ensuring they remain in pristine condition during global transit.*

# Our Customers

Trinity Tex serves as a trusted manufacturing partner for a prestigious roster of international and domestic brands across Europe, Canada, and the United States. We take immense pride in supporting the growth of these industry leaders by delivering export-grade quality and reliable, high-volume execution. Our commitment to honesty and fairness forms the foundation of these enduring collaborations.
